The title must have a maximum of 15 words and must be written in bold in the space reserved for this purpose and only the first letter must be capitalized (Font: Times New Roman and size: 16). The title of the abstract must express exactly the content of the abstract. The name(s) of the author(s) must be placed in the space reserved for this purpose. The names of the author and co-authors must begin with the last name and end with the initials of the first name, without, however, including the academic titles. If there is more than one author, these must be separated by a semicolon and the "&" symbol must be included before the last author. The corresponding author of the work must be indicated with an asterisk (*), as well as the respective e-mail address. At the bottom, immediately below the names of the authors, the affiliation (identification of the institution) for each of them must be placed in *Italics*. The text must follow the following rules: Paper format: A4; upper and lower margins of 2.5 cm; Left and right margins of 3.0 cm; Font: Times New Roman, size 11; Line spacing: 1.5; Alignment: justified. Maximum number of words: 350. The abstract must succinctly and clearly expose the objectives, methodologies, results and conclusions in relation to the proposed work. Abstracts with grammatical, spelling and typing errors and that do not comply with the required format will be returned for corrections. Abbreviations, bibliographical references, figures, tables or photos are not allowed in the abstract.

Keywords: (from 3 to 5)
